

# Sanding Machine

PW1801

5A

Cast aluminum work table tilts 0 to 45 degree, can be used with miter gauge(0 to 45 degree), which makes your work more accurate.

Two separate dust ports for 1-1/2 inch.

Fast belt tension  
砂带快速涨紧功能

Powerful 5A  
induction motor.

The belt fast tracking design helps easy and quickly adjust the sanding belt straight running.

Cast iron work table tilts 0-45 degree.

Tools storage for all wrenches.

Sturdy heavy-duty cast iron base.

Dripping artware

Metal parts deflash

Wood parts sanding

wood parts sanding

Three fine machined aluminum belt pulley ensure long-lasting and low vibration sanding.

- **POWERFUL DIRECT DRIVEN MOTOR:** 3/4 HP 5.0A brushless induction motor provides 3150 FPM speed for the belt, and 3450 RPM for the disc, 25% more sanding efficiency than belt driven motor
- **MAINTAINANCE FREE & EASY ASSEMBLE:** Unlike other belt-driven motors that need yearly belt change, the brushless induction motor do not need maintenance, and you only need to install 2 work tables, then the bench belt sander will be ready to work

## 1 x 42 In. Belt & 8 In. Disc Sander
